

The next generation of water soluble fertilizer products is here. Our ProAcqua™ branded portfolio is uniquely formulated with high-quality ingredients and our proprietary adjuvant blends. It delivers the solubility, compatibility and return on investment farming operations need to stay ahead.

- Highly compatible with crop protectants and other fertilizers for one-pass efficiency in sprayer applications
- Maximum solubility for flexibility, consistency and confidence
- Convenient formulations for foliar, drip and pivot irrigation systems

FERTIGATION + FOLIAR

Macronutrient and micronutrient fertilizer blends for fertigation, foliar and hydroponic systems.

- Range of unique blends to cover all stages of crop growth
- Formulated with the highest quality NPK and chelated micronutrients
- Supplies the proper macro-micronutrient requirements to support each physiological stage of your crop

FERTIGATION
